

Year 6 Advent Homework

Each week please choose one of the activities to complete and email your teacher a photo of your completed activity.

Maths

Can you solve all the problems? Start at the top of the Christmas tree.

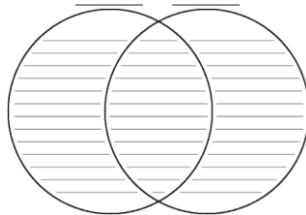

English

The Advent wreath is a very important and poignant symbol in church during the season of Advent. Can you do some research and create an informative leaflet all about it? You might want to talk about what the different candles represent, why the wreath is round and green and why we light the candles. Include pictures if you can.

Geography

Christmas is celebrated differently all over the world. Research how Christmas is celebrated in another country and make a same/different chart to compare it with England. Write the things that are different between the two countries under "different," those that are the same under the "same."

P.E

Sometimes at Christmas we eat a little too many treats! It is really important that we keep fit and healthy too. Can you design a 5-minute active activity for children in Year 2 to do each morning to get their brains working before lessons? You might want to film yourself doing this to show them or you might want to practise and then write simple instructions.

Design and Technology

We usually see mince pies at Christmas time.

Mince pies were originally made to celebrate Jesus. They were oblong in shape to represent the manger that Jesus slept in as a baby and have a 'pastry baby Jesus' carved into the pastry.

Can you have a go at making mince pies? You might even want to make the traditional ones.

Science

Ever thought about making your own Christmas tree? Why not watch the video below and have a go!
